

MYASSET RANGE

TRAC360'S MYASSET RANGE

The MyAsset family of tracking devices have been designed to monitor powered or non-powered assets and resources, both in commercial or leisure sectors. These devices provide GPS or LBS Location updates, which better improve your asset location safeguarding. For added support, we provide a simple, easy to use platform which is available via pc, tablet or mobile phone or through our mobile app, available on Android or iPhone.

KEY FEATURES

- GPS & LBS Positioning; Accurate location details.
- IP65 Casing; Water and dust resistant.

Additional benefits such as;

- Self-Installation; with friendly support and guidance.
- Simple Software; easy to use.

PRODUCTS AVAILABLE WITHIN THE TRAC360 PLANT+ RANGE;

- Hardwired units for consistent reporting – can have additional immobilisation added, setting the working hours of a vehicle or machine.
- Battery devices with 1 location ping/day – simple clarification on an assets location, for peace of mind.
- Unique products, such as a transferable tracked registration plates.
- Bespoke Packages, which combine multiple technologies, customising to your specific needs.
- Tassa Approved Fingerprint technology, used by the Metropolitan police and leading insurers to assist in vehicle or asset recovery.

ASSETS WHICH THE PLANT+ RANGE WILL COVER

- The various Battery devices with singular location pings/day, these are autonomous units, and require no connection to the asset, nor any maintenance.
- The high capacity batteries provide up to 4 years battery life.
- With their small size, this gives many options to installing the device, maximizing its success.
- Alerts, can be added such as low battery power.

LEISURE PURSUIT RESOURCES WHICH THE MYASSET FAMILY PROTECTS

- Vehicles – from classic cars to Bikes, Quads and ATVS
- Microlights to small aircraft
- Sailing and Jet-Ski's
- Caravans and Campers
- Small personal assets

COMMERCIAL ASSETS WHICH THE MYASSET RANGE COVERS SO SUCCESSFULLY

- Skips – from hired mini to commercial waste management.
- Water bowsers – of any size, in the remotest of locations.
- Trailers – domestic flatbeds upward.
- Power Tools
